

5TH Generation

Orchestrating a brighter world

NEC

High-performance, LED-backlit LCD
displays ideal for corporate environments

NEC MultiSync® EA Series

Business Desktops 24" | 27" | 30"
UHD Desktops 27"

Reimagine your desktop computing experience.

With its 5th generation MultiSync EA Series, NEC has developed monitor solutions that push the boundaries of what you've come to know as business-class screen performance. The EA Series deliver a host of enhanced features, advanced technologies, future-proof connectivity and environmentally friendly benefits. All models utilize IPS LCD panels, which boast the best possible color accuracy and minimal viewing angle shift.

EA Series Desktops

24"	EA245WMI
27"	EA275UHD
27"	EA275WMI
30"	EA305WMI

Highlights

- LED backlight technology provides for industry-leading low power consumption and less hazardous materials
- Touch-sensitive OSD® controls are integrated into the bezel, making display adjustments easier than ever
- Integrated USB 3.0 hub easily connects you to your peripherals
- DisplayPort 1.2 out for convenient multi-monitor connectivity (EA245WMI / EA275WMI / EA305WMI)
- ENERGY STAR® compliance reduces electrical costs and lowers total cost of ownership

MultiSync EA Series Features

Multiple Monitor Technologies

The ground breaking ControlSync™ technology allows users to control up to six select MultiSync EA Series units in a multi-monitor configuration. Upon establishing one unit as the master, you will be able to simultaneously control many performance attributes of the multi-monitor setup through the master monitor. ControlSync enables multi-monitor setups of up to six monitors and controls up to 26 settings.

Comprehensive Input Panel

DisplayPort, HDMI, DVI-D and 15-pin VGA *select models, as well as USB 3.0 hubs connect you to the latest peripherals and future-proofs your investment.

Adjustable for Every Workspace

Four-way ergonomic stand boasts pivot, tilt, swivel and height adjustment up to 130mm to maximize your viewing comfort. In addition, Space-saving multimedia speakers are hidden to maintain the monitor's aesthetic appeal (headphone jack also included).

Smart Sensing Technologies

Smart sensing technology includes ambient light and human sensors, which considerably reduce power consumption by automatically detecting your work conditions and adjusting to the proper display brightness or entering Power Saving Mode.

Power-saving Features

Include ECO Mode™, a carbon footprint meter and an ambient light sensor, which automatically adjusts the brightness to the optimal setting depending on ambient lighting, screen content or both, conserving power up to 87% compared to typical energy consumption. In addition, the human sensor detects user activity in front of the monitor and reduces display power up to 95% with inactivity.

IT-Friendly Features

Customize Setting allows both users and IT administrators to set and restore preferred settings with just one touch, contributing to a free-seating business environment.

The optional NaViSet™ Administrator 2.0 software offers an intuitive graphical interface, allowing for easy adjustment of display settings via mouse and keyboard. NaViSet Administrator provides all the advanced control to remotely located IT professionals.
